

Liam Prince

Full Stack Developer

✉ dream9218@outlook.com ☎ (818)-839-2073 📍 Atlanta, GA, United State

Profile

I am a developer with over 7 years of experience and a results-driven IT developer with a proven track record of delivering exceptional solutions to clients worldwide.

Always put my clients' needs first and always aim to learn from them and deliver perfect results.

With expertise in Web development, Mobile development, RESTful API and Microservice development, NFT marketplace and Wallet.

I consider promises to be laws and always keep them faithfully.

Very proactive in solving hard issues, responsive to many of our unexpected requests and fast in delivery the product on all stages.

I bring a wealth of experience and a commitment to excellence in every project I undertake.

While working I am going to meet your deadlines and demands, be open for discussion of the project.

Professional Experience

Full-Stack Java Developer(Remote), Comcentric

09/2022 – 02/2024

Littleton, CO, US

- Developed back-end logic in Java to implement state-wide underwriting model that gave policy quotes to over 500,000 potential customers.
- Worked on the customer-facing insurance application to build conditional components in Angular based on factors of applicants, ranging from their location to their type of car.
- Created database structure and logic in Redshift for a new insurance product for pet owners that had a reach of 2,000 customers in its first year.
- Wrote clean, maintainable, scalable, and tested code for 40+ applications.
- Adhered 100% to standards and best practices around development processes, coding, and peer reviews.
- Supported the technical services team of 7 to resolve customer problems, maintain quality standards, and ensure the responsiveness of applications.

Full Stack Developer Intern(Remote), Accenture

05/2021 – 09/2022

Austin, TX, US

- Assisted senior developers in implementing APIs with Node.js, lowering the average server response time by 20 ms.
- Automated daily data processing tasks using Python, reducing manual effort by 51%.
- Deployed applications on AWS, achieving a 96% uptime on small-sized servers which saved Accenture \$2,142 in hosting costs.
- Developed and documented 2 RESTful APIs, allowing other interns to leverage APIs for their daily tasks.

Senior Full-Stack Developer(Hybrid), Artis Technologies

11/2018 – 05/2021

Athens, GA, US

- Led architecture, design, and development of 30+ new features.
- Presented and conveyed ideas and designs with 4+ technical teams and 12+ business partners.
- Developed 40+ applications following Agile product development methodologies.

- Oversaw the development and maintenance of new products, technical documentation and workflows.
- Designed, built and automated data flows to save 10+ hours of tedious work per week.

Full-Stack Developer(Onsite), Collabera

03/2018 – 11/2018
Atlanta, GA, US

- Assisted in requirements analysis, High Level Design, Low Level Design, and complex code development for 20+ applications.
- Provided technical direction and system architecture for 40+ individual initiatives.
- Communicated with line of business and managed the overall status and health of 20+ applications.
- Attended 100+ weekly standup meetings to receive weekly tasks and mentorship from senior developers.

Full-Stack Engineer(Onsite), CharterUP

06/2017 – 03/2018
Atlanta, GA, US

- Learned organization's overall strategies, business operates, and what drives success in the business.
- Collaborated with 3 engineering and design teams to integrate external APIs into web pages and applications.
- Evaluated and improved existing data systems under mentor supervision.

Education

Bachelor's degree in computer science, Georgia Institute of Technology

09/2013 – 06/2017
Atlanta, GA, US
