Karki Narayan

Full Stack Developer

✉ dream9218@outlook.com   📞 (818)-839-2073   📍 Kathmandu, Nepal

Profile

Hello, This is Karki Narayan and I am from Nepal.

I am a developer with over 6 years of experience and a results-driven IT developer with a proven track record of delivering exceptional solutions to clients worldwide.

Always put my clients' needs first and always aim to learn from them and deliver perfect results.

With expertise in SPA frameworks (ReactJs, AngularJs, Vue.Js), React Native, Flutter and Ionic development, RESTful API and microservice development, NFT marketplace, wallet and trading bot development.

I consider promises to be laws and always keep them faithfully.

Very proactive in solving hard issuers, responsive to many of our unexpected requests and fast in delivery the product on all stages.

I bring a wealth of experience and a commitment to excellence in every project I undertake.

While working I am going to meet your deadlines and demands, be open for discussion of the project.

Thank you for visiting me.

Professional Experience

Full stack developer

08/2020 – 02/2024
Cox Communications, Atlanta, GA, United State

- Led the successful migration of legacy monolithic applications to a modern microservices architecture, resulting in improved system performance, scalability, and reliability while reducing maintenance overhead by 30%.
- Implemented a real-time analytics dashboard using React.js and D3.js, providing actionable insights into customer behavior and marketing campaign effectiveness, leading to a 20% increase in customer retention and conversion rates.
- Introduced automated testing practices and code quality standards, resulting in a 50% reduction in bug occurrences and a 40% improvement in overall software quality, enhancing the user experience and reducing support costs.
- Mentored junior developers, conducted technical training sessions, and contributed to internal knowledge sharing initiatives, fostering professional growth and collaboration within the development team.

Full stack developer

10/2017 – 06/2020
Leapfrog Technology, kathmandu, Nepal

- Played a pivotal role in full-stack development projects, overseeing the end-to-end software development lifecycle from requirements gathering and system design to implementation, testing, and deployment.
- Collaborated closely with cross-functional teams, including designers, QA engineers, and project managers, to deliver high-quality software products that met client specifications and business objectives.
- Demonstrated strong problem-solving skills and technical expertise to address complex technical challenges and optimize system performance and scalability.

Education

Bachelor's degree in computer science, *Kathmandu University*

04/2013 – 08/2017
Kathmandu, Nepal
